HOLDS FIRST PRIZE OF KENTUCKY PRESS ASSOCIATION AS BEST EIGHT-PAGE WEEKLY IN KENTUCKY

BIG SANDY NEWS.

Aut inveniam viam, aut faciam.

LOUISA, LAWRENCE COUNTY, KENTUCKY, APRIL 27, 1917.

M. F. CONLEY, Publisher.

PATRIOTIC MEETING LOUISA, MAY 5.

A BIG DAY IS BEING PLANNED
FOR SATURDAY, MAY
FIFTH.

Louisa citizens are preparing for a big patriotic meeting here on Saturday, May 5th. One or more prominent speakers will be secured. A brass band will be brought here from Ashland. A parade in which everybody is expected to take part will be a feature of the affair.

The committee is at work on the plans and has already raised almost enough money to defray the expenses. Mayor R. L. Vinson and Mr. O. C. Atkins are among the most active participants in the patriotic movement.

This is a time when patriotism needs to be stirred and there are thousands who want an opportunity to give expression to their feelings of loyalty for their country.

Keep the date in mind and arrange to come to Louisa and take part in this commendable affair. A flag pole raising will be an interesting feature.

ONE GIRL KILLED AND ONE TERRIBLY HURT BY SHIFTER.

Lulu Miller, aged twenty years, of Van Lear, Ky., and Mrs. Ida Wylie Davis, aged eighteen, of Catlettsburg, were struck by a shifter on the Chesapeake & Ohio crossing at Main-st., Catlettsburg, about 8:00 o'clock last Friday night. Lulu Miller was killed instantly and Mrs. Davis was so terribly injured that it was stated at the King's Daughters' hospital, in Ashland, where she was taken after the accident, that her condition was extremely critical.

The two young women were crossing the tracks and stopped to let a freight train pass on another track. They did not hear the shifter on the track on which they were standing and both were struck and carried for a distance of one hundred feet before they were discovered and the engine stopped.

The body of the dead girl was removed to an undertaking establishment and her injured companion was rushed to the hospital in Ashland.

Mrs. Davis is a daughter of Sam Wylie of Catlettsburg.

Miss Miller had been visiting in Catlettsburg for ten days or more.

MEN 35 YEARS OLD WILL BE ACCEPTED.

Men and boys between the ages of 16 and 35 years of age will be accepted by the United States Navy for enlistment. It has been announced.

It is believed the new ruling will materially increase the number of recruits as many over the former age limit of 30 years have applied for enlistment. The physical examinations are deterring many from enlistment.

JUDGE HAGER'S FAMILY OFFERING THEIR SERVICES.

At the mass meeting of Ashland citizens held at the Elks' Home Saturday night, Judge John F. Hager offered the services of his three sons, Dick, Gerald and Jack, to the government in its fight for freedom's cause.

Not only have Judge Hager's sons signified their willingness to fight for their country, but his two sons-in-law, Mr. Lucien Walsin and Mr. William H. Harrison, both of Cincinnati, have enrolled themselves as ready and willing to answer the country's call when made.—Ashland Independent.

PULASKI SAID TO RIVAL ESTILL IN OIL PROMISE.

Somerset, Ky., April 21.—The rush to the Pulaski oil field is on. This week twenty-five oil men from all parts of the country have visited Somerset and several deals have been made that mean a thorough development of the county. Geologists have made a flattering report on the conditions here and they say they believe Pulaski county will rival Estill. The machinery has arrived and within a few days the first well will be under way.

NINETEEN ENLIST IN ARMY.

Huntington.—R. J. Reese, a traveling salesman, has brought back with him from Eastern Kentucky one of the most inspiring stories of patriotism as yet produced by the war situation. Mr. Reese states that he was in Pikeville one day last week when a school teacher came in from the country with twenty pupils, nineteen of whom enlisted in the regular army. Every one of the nineteen was accepted and all were taken to Columbus.

The school from which the young men came was not a public school, but what is known in that section as a Sunlight Subscription school.

QUENTIN ROOSEVELT ENLISTS.

Washington.—Quentin Roosevelt, the youngest son of Col. Theodore Roosevelt, former President of the United States, has enlisted in the signal officers' reserve corps. He offered his papers at the War Office to-day, and will be sent immediately to the aviation school at Mineola, L. I.

MISS BLANKENSHIP ENTERTAINS

Miss Gypsy Blankenship gave a very delightful party a few evenings ago to sixteen of her girl and boy friends at her home on upper Franklin-st. Various games were played, and a good time was had by all. A delicious salad course was served.

CITIZENS SHOULD SHOW REAL INTEREST IN ROADS.

The citizens who are endeavoring to perfect a Good Roads organization in this county have unearthed a very powerful enemy in the fight for good roads. It is said to be prevalent in most every section of the county, and is a very potent reason for the road conditions being so terribly bad. This enemy to better conditions, which they seek to dislodge from its seemingly impregnable position is lack of interest upon the part of the citizens of the county in their roads. It is reported by them that the worst mud hole on the road between Charley and Louisa was located on the road leading to Blaine, within 200 feet of a good citizen's door, and almost opposite his front door; there was a twelve-inch tile culvert right in the mud hole, and it was apparent to one who could see that the obstruction of the tile caused the mud hole. The fact of this condition remained unchanged throughout the winter and up into the summer showed lack of interest upon the part of those who resided by it, but when it was discovered, by going to the end of the culvert and looking into it, that the stoppage of the flow of water was caused by a rabbit trap having been placed in this culvert, it was very patent that the people who passed over this culvert did not have any interest in the matter, but just took the road as they came to it. Any man who passed this place could within two minutes have removed the rabbit box, and thereby remedied this condition. It is no purpose for a person to exclaim his interest in roads without putting into action the expressed desire to secure them.

TWO ARE KILLED IN PISTOL DUEL.

Hazard, Ky., April 23.—In a pistol battle early today at the head of McIntosh branch at Catakin creek, two men were killed and four others wounded, two of them seriously. John B. Feltnier, brother of "Mose" Feltnier, killed here last fall by a deputy United States marshal, was one of the victims. Roscoe Brewer also was slain. Riley and Monroe Melton, brothers, received serious wounds. Russell Wootin, deputy sheriff, was wounded slightly, as was a fourth man, whose identity the officers have not determined.

Feltnier was a farmer 50 years old. He had accompanied the deputy sheriff to Brewer's home to assist in arresting Brewer, who was under indictment and had forfeited bond supplied by Feltnier. The Meltons were on this same mission.

KENTUCKY CANNING FIRM OFFERS PLANT TO COUNTRY.

Washington, April 24.—The Liberty Canning & Fruit Company, of Covington, Ky., has tendered its plant to the Government as its patriotic contribution in the war emergency. In a letter to Representative Rouse the company says:

"We desire to place at the disposal of the Government our canning plant, which is modern in every particular." The company also says that the plant is operated by experienced people. Representative Rouse at once placed the offer before the Quartermaster General of the army.

Byron Hogg Kills Fellow Soldier

Byron Hogg, son of Charles Hogg, formerly of this place, is under arrest for killing John Frazier Tuesday night of this week. The tragedy occurred at Elkhorn City. The two men were soldiers and were on guard duty at that place. Frazier is said to have been a native of Michigan. Particulars of the trouble have not been learned.

Charles Hogg moved from Louisa to Catlettsburg two or three years ago. He had long been employed on the C. & O. section force. His son Byron saw army service in Mexico and recently re-enlisted.

PRICHARD-WHEELER.

A wedding that will come as a decided surprise to the friends of the contracting parties is one which took place at the home of Mrs. S. G. Kinner in Catlettsburg at 8 o'clock Monday evening, when her youngest daughter, Mrs. Ceres Kinner Prichard was united in marriage to Mr. William P. Wheeler, of Ashland, the ceremony being performed by Rev. G. H. Harrison rector of the Episcopal church. It was a quiet home wedding and was witnessed by only the immediate family.

The happy couple left on the mid-night train for Philadelphia, New York, Boston and other eastern cities.—Independent.

THEFT OF BALLOTS CHARGED.

Huntington, W. Va., April 24.—For the second time the case of the United States vs. Greenway Hatfield, George R. Maynard, Valentine Hatfield, Noah White and Jack Brewster, charged with conspiracy to steal the ballots and poll books at the Rockhouse Precinct, in Mingo-co., at the congressional election in 1914, went to trial here to-day before Judge Charles A. Wood, of the United States Circuit Court of Appeals. The jury was obtained late to-day, and the opening statements were made by Senator D. E. French, for the Government, and John S. Marcum, for the defense.

NEW COAL COMPANY.

The White Ash Coal company is the name of a new firm starting a coal operation near Fort Gay. It is located on the Foster property. The shipping of coal will start as soon as possible. Mr. Nelson is in charge of the work.

ROAD MEETINGS NOW BEING HELD

THE LAWRENCE COUNTY ORGANIZATION IS ALREADY AT WORK.

A Good Roads Meeting was held at Charley, Thursday, April 19, with the President and Secretary of the Association, namely Augustus Snyder and Fred M. Vinson present and participating in the meeting. These men, together with County Judge Clayton, and County Attorney C. F. See, Jr., proceeded to Charley in an automobile loaded with two shovels and a mattock. It was necessary for them to make a way to their destination, and many a mud hole suffered from their labors.

After being entertained royally at the home of Mr. L. W. Spencer, a trip was taken two miles beyond Charley for an investigation of a very bad slip in the road, and means were decided upon by which the condition could be met.

The meeting was presided over by the County President, and participated in by a large number of the leading citizens of that community. Among those present were Dr. L. S. Hays, W. T. Hays, Lafa Hays, John Hays, Green Hays, Eph Moore, Wm. Chapman, Jno. Wallace, Squire Pack, Mr. Hickman and Mr. Lowe, Wm. Chapman and Jno. Hays were elected Chairman and Solicitor of Georges creek precinct; Dr. J. O. Moore and Ephraim McKinster, for Little Blaine precinct; Andrew Austin and John Chapman for Gambill precinct.

The people of this section of our county have the spirit which will bring good roads to that portion of the county. To illustrate the spirit by which these people are moved in their desire to better their road conditions, there is a bad piece of road above the old Hays place, the road running in the creek for more than a mile, and at this meeting the right of way was donated to the county through the farms of W. T. Hays, John Hays and Sarah Hays, and it was suggested that Major Hays would contribute the right of way thru his farm. John Chandler and other citizens affected have agreed to build the road without cost to the county. The officers of the Good Roads organization are to go upon the land and settle upon the location of the road in the very near future. Unselfish acts, such as these, undoubtedly seal the fate of our present roads.

Mention should be made of the fact that John Hays had used a split log drag upon a goodly portion of the road in this neighborhood to good effect. The spirit and enthusiasm with which these good people enter into the fight for good roads were most encouraging to the men who are attempting to perfect the Good Roads organization in this county.

The Good Roads Meeting, which was held at Gallup upon Friday, April 20th was called to order by Chairman John H. McClure, with Augustus Snyder, Fred M. Vinson, J. B. Clayton and C. F. See, Jr., present from Louisa assisting in the organization of this magisterial district. A. S. Gilkerson and G. W. Shivel were elected Chairman and Solicitor for Dobbins precinct; John G. Burns and W. D. Shannon being selected to fill these offices for upper Louisa precinct. Among the other citizens present were James Dobbins, Frank McClure, Don Belcher and Isadore Fugitt.

The conditions of this district were discussed at length and the citizens present were assured by Judge J. B. Clayton and C. F. See, Jr., that the laws with reference to the roads would be strictly enforced. They affirmed that all persons reported to them for failure to work the road, or for tearing up the road by excessive hauling, would be arraigned in their court and given a speedy trial. Some timber people in the Dobbins precinct were said to have done considerable damage to the roads in hauling timber and lumber thereon. These officials are to investigate and take action in the matter unless the road be speedily repaired.

After partaking of the splendid hospitality of John H. McClure and G. W. Shivel, the party from Louisa, accompanied by Messrs. John H. McClure and G. W. Shivel, wended their way on foot up Contrary creek, and across the mountain to Richardson, a distance of some seven miles, where a second meeting for that day was scheduled. Dr. W. W. Wray was in charge of this meeting, and there were present among others, R. D. Hinkle, J. W. Hinkle, Sam Price, John Scarberry, R. D. Hinkle and Sam Price were appointed Chairman and Solicitor for Peachorchard precinct; John Maynard and Sam Branham were selected to fill these places in Rockcastle precinct.

From some cause there were numbers of vacancies in the office of Overseer of Roads in Peachorchard and these places were filled on the spot by Judge Clayton. It was said that the custom prevalent in Dobbins precinct with respect to the failure to work the road was in force in this precinct and notice was given that all men refusing to work the road without lawful excuse would be prosecuted and fined. Certain folks had fenced up the road in this precinct, it was said, and others had put logs in the road. County attorney See was appointed to go after these parties and have the obstructions removed; if possible to have these obstructions removed without prosecution, but to have them removed.

Mrs. J. D. Biggs returned Monday to Huntington, W. Va., after a visit to her sister, Mrs. G. R. Vinson.

MRS. ANNIE R. KISE DIES OF PARALYSIS.

Annie R. Ramsey was born in Fife Shire, Scotland, July 28, 1852. After a lingering illness of several weeks she succumbed to paralysis at her home at Kise, Lawrence-co., Ky., April 20, 1917, at the age of 63 years, 8 months and 22 days.

When but a small child she came with her parents to this country, landing at Philadelphia. On January 26, 1871, she was married to David G. Kise and most of her life since has been spent at Kise, this county. Five children blessed the home. Andrew, of Washington, Ind., Mrs. Lena Swetnam, Robert and William, of this county. Frank, the second son, died several years ago. Her husband died in December, 1912.

Mrs. Kise was converted in early life and has been a member of the Methodist Episcopal church for about 40 years.

The unanimous and hearty testimony of all who knew her is that she lived a consistent christian life. "Blessed are the dead who die in the Lord."

Funeral services were held at her late home April 22 by Rev. A. C. Bostwick, assisted by Rev. Miller, a neighbor and friend of the family, and her body was laid to rest in the cemetery near the Kise home.

"Oh, that land without a shadow, That world without a shade, That city set upon a hill With firm foundations laid: I would fain be there at morning, I would fain be there at night; My heritage, my kingdom dear, Where Jesus is the light."

NAVY RECRUITING OFFICER TO BE HERE

WILL BE IN LOUISA MAY THIRTEENTH AND FIFTEENTH, SEEKING RECRUITS.

Lexington, Kentucky.

Editor Big Sandy News:— I am sending out from this office a Recruiting Party for the Navy. This party is divided in two sections, the first of which is called the Advance Party and the other the Follow-up Party. The Advance Party will be in your town on May 13, 1917, and the Follow-up Party two days later. The Advance Party will distribute literature, etc., and the Follow-up Party will enlist men.

You no doubt are aware of the urgent need of men for the Navy. This office, which is the main Navy Recruiting Station for the State of Kentucky, has been requested to furnish 800 men for the Navy from the State of Kentucky. Without the help of the citizens and especially the newspapers, we will not be able to accomplish this by the date set by the Navy Department, May 26th.

For any further information please address this office.

R. S. ROBERTSON, JR., Recruiting Officer.

TELLS COLLEGE GIRLS TO TILL THE FIELDS.

Boston, April 22.—Professor T. N. Carver of Harvard has called upon all college girls to till the fields this summer, instead of playing tennis or riding in automobiles.

"Our college girls this summer should work," he said. "The same energy which they have hitherto put into lawn tennis or golf must be put into fields with the hoe or spade. If the young college men are preparing for military duty something must be done to make up their labor supply."

PATENTS ARE GRANTED TEN KENTUCKY INVENTORS.

Washington, April 19.—Patents were granted Kentuckians today as follows: Ernest Hutton, of Wayland, cross tie; Leonard Kramer, of Ashland, wire measuring device, and W. J. McGirr, of Pinson Fork, metal tie.

CIVILIAN IS SLAIN.

Charleston, W. Va., April 24.—Adjutant General John Bond to-day received an official report from the commander of the national guardsmen doing police duty at Princeton, W. Va., that a soldier, in the discharge of his duty, had killed a civilian. General Bond, in announcing the shooting, said that, while such incidents were extremely regrettable, the people must realize the country is at war and citizens must obey the regulations laid down for their guidance.

FARM IMPLEMENTS SOUGHT.

New York, April 21.—Forecasting the demand for farm implements that will result from the Government's program of prodigious food production throughout the country, manufacturers of agricultural machinery are placing large orders for soft steel bars and special steel in order to increase their output and thereby meet the farming requirements when the campaign gets into full swing. Several hundred thousand tons of steel have been ordered, it was learned to-day, for agricultural machinery.

CLAYTON-BALL.

Mr. Howard Ball, 21, and Miss Mollie Clayton, 21, both of Cherokee, Lawrence-co., were married Wednesday, April 11, in the court house, County Judge J. E. Thornbury officiating. This marriage is said to be the culmination of a romantic courtship followed by elopement.—Grayson Journal.

MILTON HOLTON KILLED BY TRAIN

FATAL ACCIDENT HAPPENED IN LOUISA LAST SUNDAY AFTERNOON.

One of the saddest accidents that has happened in this county for a long time was that which ended the life of Milton Holton. It occurred in Louisa last Sunday afternoon on east Jefferson-st., in front of the home of Wm. Hammond, where the young man was boarding. He stepped too close to a passing freight train and met instant death. Just before the accident he had asked Miss Claudia Hammond and the two daughters of Wm. Hammond to take a walk, and they started just as a freight train was passing. He said, "Let's take a ride," and stepped over near the track and touched the cars, pretending to be trying to catch hold. Then turning as though to step away from the track the witnesses were horrified to see his body dashed to the ground, one foot being caught under the wheels and part of it cut off. His head struck a rock with such force that death was instantaneous. It all occurred so suddenly that no one who saw it is clear as to the exact cause, but it is believed a projecting rod caught in his pocket.

The body was taken on Monday to his home near Blaine. The schools were dismissed until the sorrowful procession moved out of town.

Mr. Holton was in his 21st year. He was a student in the law department of Kentucky Normal College and ranked as one of the brightest and most worthy students in the entire college. He was a young man of unusually high character and ideals. His death caused profound sorrow throughout the town and has awakened a sense of the insecurity of life as no other occurrence here has done. The brittle thread of life was snapped in such an unusual manner as to bring a realization of the fact that danger lurks at almost every footstep along life's pathway, and that constant preparedness for death is the only safeguard worth while.

The unfortunate young man was the youngest son of Mrs. Martha Swetnam Holton, widow of George Holton. One brother and one sister survive. To these the deepest sympathy is extended.

DOC VINSON CRITICALLY AT CATLETTSBURG.

Doc Vinson, prominent and popular citizen, who was found unconscious on his bed room floor by his son, John, Tuesday morning, is still critically ill, having failed to regain consciousness. He suffered a stroke of paralysis. He and his son live alone, and he being later than usual in rising his son John went to his bed room and found him lying prostrate, face downward. His only daughter, Mrs. Allen, has arrived from Harrodsburg and his cousin, Mr. A. Mims and others have been in constant attendance, and physicians are using all means known to science to relieve the stricken man, whose ailment is the cause of much sorrow.—Catlettsburg Independent.

News of The Oil Fields

Barbourville, Ky., April 22.—In the Kentucky petroleum fields some late strikes of large capacity in the southern counties, bordering Tennessee, feature the week's returns in completed work. Two wells of 100 barrels capacity each were drilled in Allen-co., a district distinct from other Kentucky fields. One of these big wells was drilled by the Republic Oil company. The White Plains Oil & Gas company drilled the other 100-barrel well. In addition to these wells a number of smaller strikes were made in Allen-co., averaging ten barrels. Lack of adequate market for Allen-co. production has had little effect in checking drilling operations, about twenty rigs being up at the present time. Distance from supply houses is a handicap. A small production is sent to a Nashville refinery, but most of the wells are idle, awaiting a better outlet than the present tank car arrangement.

Whitley, Knox and McCreary counties, forming a group in Southeastern Kentucky, are very active spots just now. A recent 200-barrel strike in McCreary-co., has attracted much attention. Late reports from this well, which was drilled in advance of production, justify the earlier claims for it. The producing branch of the Standard Oil company, owners of this test, is drilling its third venture. Last week a 5,000,000 cubic feet gas well was drilled into the Big Injun sand near Williamsburg, in Whitley-co., and dozens of operators have gone into the county during the week, drawn by this big gasser. The discovery of this deep formation is an event of much significance.

Upper Kentucky developments, especially in Estill-co., may receive a setback as a result of the disastrous fire at the Lewis Station, Morgan-co. A 35,000-barrel storage tank, filled to capacity, was destroyed, along with the pumping station, which was the integral part of Estill and Powell counties' marketing facilities. As a result no shipments have been made from these two leading pools of the State. Many wells will probably have to stand idle until the damage is repaired, it is stated, and new drilling may be curtailed. In the past only 50 per cent. of production from these fields has been moved because of inadequate pipe lines.

In scattered work one well of ten barrels capacity was drilled in Lee-co., this being No. 6, Hall tract. One late pumper of moderate capacity is reported from Wolfe-co. Stillwater district, with a well of similar capacity drilled in Lawrence-co., Hunsayville pool.

A new advance in Kentucky petroleum during the week raised the better grade to \$2.20 per barrel. The inferior grade, of which a very limited amount is produced, remains at \$1 per barrel. From all districts there is a general report of scarcity of drilling material. With operators anxious to push developments as rapidly as possible during the summer season, there is a scramble for every sort of material. There is little second-hand equipment available, and manufacturers are unable to furnish new stock to meet present demands. This condition will doubtless interfere to a great extent with plans for greatly increased operations in the Kentucky districts. There are now nearly 200 drilling rigs in operation in Kentucky and about a dozen in Tennessee.

GEO. WILES, OF WILLIAMSON, GETS GOOD APPOINTMENT.

Charleston, W. Va., April 23.—By virtue of appointment by Governor John J. Cornwell, George R. C. Wiles, of Williamson, Mingo-co., today assumed the office of public service commissioner, succeeding Elliott Northcott, resigned for a term expiring July 1, 1917. This is one of the best appointments in the State.

In making the appointment the governor said:

"I felt the appointee should come from the southern end of the state. Mr. Wiles is a young man, with character and ability, a well equipped and successful lawyer, self-made. He has no connection, business or otherwise that tended to make his appointment on this commission questionable. At the same time, he is broad-gauged, conservative and well balanced. His life, business, personal and political is, and has been clean. I believe his services to the state will justify the appointment."

BUY COAL LANDS IN PIKE COUNTY.

A syndicate consisting of Paul Hardy, R. F. Alshree, Thomas W. Harvey, C. M. Cohen, J. H. LeBlanc, J. K. Oney, J. M. Moore, B. J. Helmer, C. W. Snyder and Claude Gault, have acquired leases on a tract of coal land in Pike county, Ky. A company, to be capitalized at about \$50,000 will be formed this week to take over the leases and begin development.

Two other coal operations are owned and are now being operated by practically the same group mentioned above.—Huntington Herald-Dispatch.

MOTORISTS PLAN RELAY RUN ON MIDLAND TRAIL.

Arrangements are being made for a relay run by motor cars over the entire length of the Midland Trail from Washington to San Francisco. The run is to be made by amateur motorists who will see how quickly they could relay a dispatch from Washington to San Francisco in case ordinary means of communication had been severed by some enemy attack.

It is planned to make the run early in June.

THRIFT A NECESSITY.

Gladstone believed a boy who is taught to save his money will rarely be a bad man or a failure. Thomas Jefferson paved the way to our moral and material success by teaching the pioneers to avoid poverty. William McKinley insisted that it is the little savings bank in the home which means more for the future of the children of a family than all the advice in the world.

Woodrow Wilson believes thrift is the fundamental responsibility of human life.

Abraham Lincoln was a living example of thrift.

George Washington was forever telling his hearers of the importance of thrift.

Bismarck declared that thrift is a national necessity; that extravagance breeds vicious or worthless members of a community.

INCREASE CORN PRODUCTION.

Corn is America's most important cereal. It can be grown successfully over a wider area than any other and furnishes nutritious food for man as well as the staple grain feed for cattle and draft animals. The production of corn should be increased this year to the fullest extent, taking into consideration seed, labor, and existing economic conditions, and the availability of good land in corn growing regions not needed more urgently for other crops.

BODY FOUND IN RIVER.

Huntington, W. Va., April 24.—A search which had extended to all parts of the United States and to points in South American terminated today when the body of Ernest Blankenship, of this city, was found in the Ohio River at Ironton. Blankenship and Asa Ronk disappeared from their home here on the night of November 24. It was believed by some they had gone out into the world in search of adventure, although it had been reported they were last seen crossing the Ohio in a leaky boat.

A CORRECTION.

The NEWS was in error in stating last week that the death of Eleanor Sue, baby daughter of Mr. and Mrs. Aden See, occurred at Clifford. It was at the home of the grandfather, C. F. See, in Louisa, and the body was taken to the Hartman burial ground at Clifford for burial.
